STANDARD COMPONENTS

(1) Lower modules with 5cm recessed back. (2) Sink modules with recessed and protected bar. (3) Mechanized safety shelf support in the shelf.

(4) 8mm glass shelves in cabinets with safety supports. (5) Anti-buckling reinforcements for shelves from 90 wide. (6) Upper groove profile. (7) High resistance anodized stainless steel reinforcement bar. (8,9) High resistance internal hanger with cover, tested for 65kg per hanger according to DIN 68840. (10) Internal adjustment of the rear legs. (11) High resistance polypropylene legs, with CATAS test for 700Kg of weight per unit, test n°10/367/1062. All components are machined with numerical control systems and assembled with Euro screws or nylon plugs.

OPENING SYSTEM

(13) Hinges with brake, triple adjustment, quick assembly clip system, 100° opening, and certified for 60,000 cycles with test 205681/1. (14) Shock absorber stop inserted by drilling in doors and fronts. (15) Opening system for drawers with ejector and Grass Tipmatic-Softclose soft close. (16) Range of Blum Aventos HK, HKS, HS, HL and HF hoists. (17) Mechanical expulsion systems for swing doors and Blum elevations. (18) Blum Servodrive electric opening and closing system for Aventos.

DRAWERS

Steel drawers, Vionaro V8 with Grass Zircon finish, 8mm thick.
Drawers with high side, optional glass side.

3D adjustment.

Precise drawer front alignment is especially helpful for handleless fronts. Regulation in three dimensions: height, side and inclination.

Dynapro.

35kg runner system (70kg for 90, 100 and 120 width drawers), tested a million times. Extremely low opening forces. Synchronized movement. 4D fit for perfect alignment. Full extension.

As standard, drawers and drawers will come with a non-slip mat that is resistant to odors, stains, humidity, and water. Optional matching cutlery.

OTHER ACCESSORIES

(25) Dish drainer modules with stainless steel fittings and stainless steel anodized aluminum reinforcements on the rear and front. (26) Transparent silicone corner protector. (27) Sink module with stainless steel protector and reinforced with stainless steel anodized aluminium. (28) Interior design in high quality anthracite, full extraction with Grass guides, lateral stabilizers and anthracite trays.
